## "LOOKING UP AND OUTWARD"

Several years ago I visited an old friend who had been through a lot of things in life that many people would like to avoid. His marriage was not the best and he had two daughters who had not made good choices and his wife, as supportive as she strived to be, was dealing with a lot of issues from her past that did not help in the marriage. I truly believe that he wanted a better life for himself and his family. However, because of his religious background, he had long ago concluded that religion was not the answer for his feelings or emptiness and unhappiness. While we sat there in the café drinking our coffee, he suddenly looked at me and said, "Jack, what is it all about? Just what is life all about and why do so many think religion is the answer when I have been down that road and it never worked for me?" As I sat there thinking of all the things I could tell him about the right religion, right church, proper worship etc., it suddenly dawned on me that all I was about to do was offer him more religion. It was at that moment that I realized that most of my evangelical efforts of the past were nothing more than trying to convert people to the right religion or right church rather than to Christ. I decided to just tell him about Jesus, his ministry and his mission to restore to us what had been lost in the Garden of Eden, and that was our relationship with God. He listened, and as a result it led to a bible study in his home with his family. That study convicted his wife and I had the privilege of baptizing her into Christ. However, as far as I know, he never has obeyed the Gospel. But I can sleep better at night because I know I was faithful in telling him about God, His Son, and their mission to restore us to them, instead of offering him just another religion. I have discovered that when I had simply converted people to the church, they either became Pharisees or they soon left the church. But I also discovered that when I have lead people to Christ, they truly become the church. Think about it!

I love you all, Jack Cummings
